

Story: Login

As a user,
I want to login,
So that credentials are automatically filled when ordering.

<div><div><div>Username</div><div></div></div><div><div>Password</div><div></div></div><div>Login</div></div>	

Acceptance Criteria

- Both fields are required.
- Password must be at least 8 characters, containing at least one special character.
- Password cannot be changed (yet).
- After logging in, the customer is redirected to the home page with products. **front-end**
- The password field must have **hidden characters by default**. There should be an eye icon to show the password if needed.
